EDUCATION

Ph.D. in Mechanical and Aerospace Engineering Sep. 2014-June 2020

University of California San Diego, La Jolla, CA

M.S. in Mechanical and Aerospace Engineering Sep. 2014-Mar. 2016

University of California San Diego, La Jolla, CA

B.S. in Applied Physics Apr. 2010-Mar. 2014

Keio University, Tokyo, Japan

RESEARCH EXPERIENCE

University of California San Diego, Electrical and Computer Engineering, La Jolla, CA July 2020-

Postdoctoral Scholar | Interests: Robotics, Machine learning, SLAM, Perception, Path planning

Project: “Active Exploration and Mapping: Optimal Control and Reinforcement Learning Approaches”

Advisor: Nikolay Atanasov

University of California San Diego, Mechanical Engineering, La Jolla, CA Sep. 2014-June 2020

Research Assistant | Interests: PDE control, Extremum seeking, 3D-printing, Lithium-ion batteries

Thesis: “Control and State Estimation for Materials Phase Change: Design, Analysis, Applications, and Experiments”

Advisor: Miroslav Krstic

Mitsubishi Electric Research Laboratories (MERL), Cambridge, MA June 2018-Sep. 2018

Research Intern in Data Analytics Group | Topics: Extremum seeking, Nonlinear observers, HVAC

Project: “Learning-Based State Estimation for Coupled Thermal and Fluid Systems”

Mentor: Mouhacine Benosman

NASA Jet Propulsion Laboratory (JPL), Pasadena, CA Oct. 2017-Nov. 2017

Research Intern in Earth Science Division | Topics: Data assimilation, Adjoint method, Sea ice modeling

Project: “Estimating the Circulation and Climate of the Ocean (ECCO)”

Mentor: Ian Fenty

Rensselaer Polytechnic Institute, Albany, NY June 2017-Aug. 2017

Visiting Researcher | Interests: Additive manufacturing, Physical modeling, PDE control

Project “Modeling and Control Algorithms for Additive Manufacturing”

Advisor: Mamadou Diagne

Keio University, Tokyo, Japan Apr. 2013-Mar. 2014

Undergraduate Student Researcher | Interests: Stochastic Optimal control, Kalman filter, Thermodynamics

Thesis: “Maximum Power Output of the Feynman Ratchet under the Feedback Control”

Advisor: Youhei Fujitani

TEACHING EXPERIENCE

- **Teaching Assistant**, MAE 281A: Nonlinear Systems, UC San Diego Winter 2017
- **Teaching Assistant**, MAE 281A: Nonlinear Systems, UC San Diego Winter 2016
- **Teaching Assistant**, Numerical Methods of Dynamical Systems, University of Tokyo Spring 2014

AWARDS

2020: Robert E. Skelton Systems and Control Dissertation Award, UCSD Center for Control Systems and Dynamics (CCSD).

2019: O. Hugo Schuck Best Paper Award, American Automatic Control Council (AACC).

2018: Outstanding Graduate Student Award, UC San Diego Mechanical and Aerospace Engineering (MAE).

PROFESSIONAL ACTIVITY

Workshop Organization

1. Co-organizer, Workshop on “Safe Robot Control with Learned Motion and Environment Models,” IEEE International Conference on Robotics and Automation (ICRA), Xi’an, China, June 2021.

Invited Talks

1. “Future Perspectives on Control of Parabolic PDEs with Moving Boundaries”, DPS Online Seminar, June 2021.
2. “Output Feedback Control of the One-Phase Stefan Problem”, 30th Southern California Control Workshop, University of California San Diego, June 2016.

Review

Journals: IEEE Transactions on Automatic Control; IEEE Transactions on Control Systems Technology; IEEE Transactions on Robotics; IEEE Transactions on Industrial Electronics; IEEE Transactions on Systems, Man and Cybernetics; ASME Journal of Dynamic Systems, Measurement, and Control; Journal of The Franklin Institute; International Journal of Adaptive Control and Signal Processing; IEEE Control Systems Letters; Systems and Control Letters.

Conferences: IEEE Conference on Decision and Control (CDC), American Control Conference (ACC), IEEE International Conference on Robotics and Automation (ICRA), IEEE Conference on Control Technology and Applications (CCTA), Conference on Learning for Dynamics and Control (L4DC).

Mentoring

PhD Students: Arash Asgharivaskasi (UCSD), Zhichao Li (UCSD), Cenk Demir (UCSD)

Visiting Students: Mona Buisson-Fenet (MINES ParisTech), David Straub (University of Stuttgart), Jan Feiling (University of Stuttgart), Ji Wang (Chongqing University)

Society Membership

IEEE, Member

2015-Present

American Society of Mechanical Engineers (ASME)

2016-2017

Volunteers

Vice President, Japanese Graduate Student Association in US (JGSAU)

Mar. 2016-Feb. 2019

Managed virtual meetings for organizing lectures on presenting graduate programs in the U.S., which have been held at more than 10 universities in Japan every year since 2010, supported by the U.S. embassy.

PUBLICATIONS

Book

1. **S. Koga** and M. Krstic, “*Materials Phase Change PDE Control and Estimation: From Additive Manufacturing to Polar Ice*”, Springer, 2020.

Journal Papers

1. **S. Koga** and M. Krstic, “Control of Stefan system and applications: A tutorial”, *Annual Reviews in Control*,

Robotics, and Autonomous Systems, accepted, 2021.
